PROFILE

IT student at Durban University of Technology, currently completing an Advanced Diploma in ICT. Recently built and shipped features for a live SaaS product at Looped.sh, including billing pipelines and user-facing dashboards. Comfortable moving between frontend, backend, and database work, with hands-on experience across web, mobile, and desktop projects.

SKILLS

C# · Flutter · React · Python · TypeScript · SQL · HTML & CSS · Java (Android/Mobile) · Linux · Database Design · Git & GitHub

EXPERIENCE

Full-Stack Developer — Looped.sh

Jan 2026 – Jun 2026

- Built and maintained billing/invoicing pipelines and user-facing tracking dashboards for a live SaaS product
- Worked across modern frontend frameworks and backend database design to ship features on an agile release schedule

Temporary Administrative Assistant — Astel Systems

Jul 2026 – Dec 2026

- Managed calendars, scheduled meetings, and handled correspondence for the team
- Performed data entry and maintained accurate records to keep operations running smoothly

Web Designer (Side Business) — Studio Worx

2023 – Present

- Design and manage WordPress websites, combining UI/UX design with marketing strategy to grow client visibility
- Optimise sites for performance and aesthetics, delivering measurable results for clients

Student Admin Representative — Durban University of Technology

2023 – 2025

- Assisted first-year students with registration and applications to study at DUT for three consecutive years, guiding them through the enrolment process

KEY PROJECTS

- Airline Reservation System (C#, 2023) — Team project; awarded Best 1st-Year Software Project
- Campus Security Website (C#, HTML/CSS) — Full website with its own database and querying system
- Mobile Parking App (Java/Kotlin, Android Studio) — Android app built and tested on a virtual machine
- 2D Game — Personal project exploring core game development fundamentals

EDUCATION

Advanced Diploma in ICT — Durban University of Technology (In Progress)

Diploma in ICT: Application Development — Durban University of Technology (Completed, 2023)

Grade 12 — Kharwastan Secondary School (2022)

CERTIFICATES

AI & Microsoft (2025): AI Fundamentals, Generative AI, Responsible AI, Microsoft Copilot, Search Technology, AI & Accessibility
Cisco Networking Academy (2023): Cybersecurity Essentials, Introduction to Packet Tracer
